# Now your and endowing

Francesco provides really good explanations and intuition for the class problems. He usually finishes most it not all at the problems. He is also very helpful in office hours. Could be a bit better about returning problem sets. Overall, very good TA.

You're very good at explaining the key concepts, especially intuition. I would prefer if we covered all the assigned problems each week. Thanks for your help!

(LARITY OF EXPLANATION IS VERY GOOD, HELPS TO IMPROVE MY OWN UNDERSTANDING

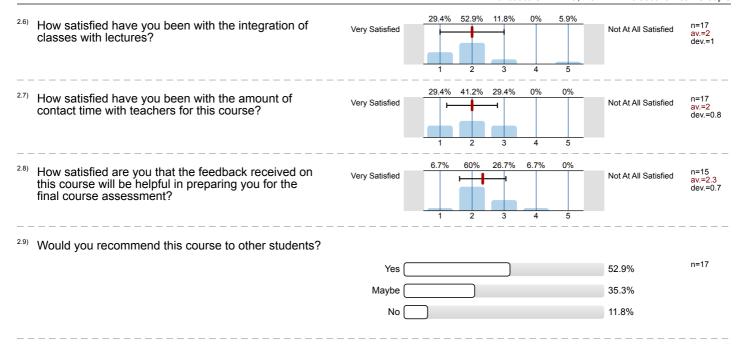

-Could focus more on concepts
- Better board work
- Makes classes interesting -

I think he improved a lot since last term, he knows us bother and tries to address the things that we find more challenging. maybe manage the hand-writing a little bit!

15.03.2016 EvaSys evaluation Page 2 Again, my quibbles have more to do with the course material than with Francesca's teaching. He reliable and even humanous, but hardly goes the extra mile... and I don't really 66 me him for expending as little effort as possible on problem sets that are so mind-numbinally note. explaining

Give Francesco the prize. He deserves it. He is great.

<sup>2.10)</sup> Please write below what you think could be improved about this course as a whole and/or aspects of the course that have been particularly positive.

More models. At the momend, if one reads textbooks, one has 100% of info needed for exam. So then the question becomes: Why see have leduces.

TINTEGRATION OF CLASSES AND LECTURES COULD BE BETTER IN
MICHALMAS TERM, LENT TERM IS FINE

This remester of the course doesn't add anything new to what students have studied in their undergrad in Economius. Leitures ware not added much to my existing knowledge of the topics covered.

lecture soldes, lecturer style of teaching

Everything. This course exemplifies all that is wrong with the way economics is taught.
